

# Rediscover a Forgotten Delight

One of the little luxuries most take for granted, is the pleasure of a relaxing bath. Now you can take control with the AquaJoy Bathlift, gone is the need for assistance. Once again you can delight in one of life's truly wonderful experiences.

## Simple Operation

The AquaJoy Bathlift is smooth and effortless to operate. At the touch of a button, and without assistance, you lower yourself into the pampering warmth of the bath. Take all the time in the world to relax and savour this experience. Then, when you're ready to get out, just press the button and up you go. It's that easy.

## Portability

The AquaJoy Bathlift is easily removed so others can use the bath. Also, as it's portable, you can take it with you for holidays or weekend visits to family and friends.
