PUPPIES FOR SALE

A farmer had some puppies he needed to sell. He painted a sign advertising the pups and set about nailing it to a post on the edge of his yard. As he was driving the last nail into the post, he felt a tug on his overalls. He looked down into the eyes of a little boy.

"Mister," he said, "I want to buy one of your puppies."

"Well," said the farmer, as he rubbed the sweat off the back of his neck, "these puppies come from fine parents and cost a good deal of money."

The boy dropped his head for a moment. Then reaching deep into his pocket, he pulled out a handful of change and held it up to the farmer. "I've got thirty-nine cents. Is that enough to take a look?"

"Sure," said the farmer and with that he let out a whistle, "Here Dolly!" he called. Out from the doghouse and down the ramp ran Dolly followed by four little balls of fur. The little boy pressed his face against the chain link fence. His eyes danced with delight.

As the dogs made their way to the fence, the little boy noticed something else stirring inside the doghouse. Slowly another little ball appeared; this one noticeably smaller. Down the ramp it slid. Then in a somewhat awkward manner the little pup began hobbling toward the others, doing its best to catch up....

"I want that one," the little boy said, pointing to the runt. The farmer knelt down at the boy's side and said, "Son, you don't want that puppy. He will never be able to run and play with you like these other dogs would."

With that the little boy stepped back from the fence, reached down, and began rolling up one leg of his trousers. In doing so he revealed a steel brace running down both sides of his leg attaching itself to a specially made shoe. Looking back up at the farmer, he said, "You see sir, I don't run too well myself, and he will need someone who understands."

The world is full of people who need someone who understands.

Distance no barrier to our service.

One of the great things about living in Auckland is that air travel is so cheap to the main centers. Recently I had to service one of our products in Christchurch. I jumped on the plane in the morning and was back home by 2.30 pm the same day. We have a commitment to excellent service and I am also happy to demonstrate our products where and whenever it suits you best. For appointments ph 0800 102 803

Client testimony for the Solo toilet lift. I have had my new toilet lift or three months now and have found it very helpful and easy to use. The armrests can move out of the way giving me more room to move around in my small bathroom.

I now have the larger batteries which will mean my caregiver will not need to recharge them over the weekend.

Hints & Tips

Some of our rails are really difficult shapes to wrap. So it's a very good idea to keep the wrapping that they come in and re use it if you have to send them back to us.

Special deal on Bed Levers

- Order either of our Bed Levers below and we match the common list price for Bed Levers in your area! (*no limit on quantity*)
- + For every Bed Lever you order, we will donate \$5.00 to help the earth quake victims in Haiti. (*offer ends 30th May 2010*)

Help your client to feel safer and more confident.

Recent improvements to reduce sideways movement of the Bed Lever while fitted to the bed greatly enhance the steadiness of the lever, helping your client to feel safer and more confident.

Types of beds they will fit

Inner sprung beds , Slat beds, some profiling beds.

Slat beds have a wooden base with a lip around the edge. This makes it impossible to fit the traditional Bed Lever because the bulky wooden block under the hand rail gets in the way. The Multifit Bed Lever has no such block and so can easily fit to slat beds and inner sprung beds alike making them more universal for reissue.

Maximum user weight 100kg
Rail height 550mm
Optional fittings Cord & Cleat

Optional - anti entrapment safe rail divider

Toilet lift (MW TL)

The Mountway Solo Toilet Lift is a functional, unobtrusive solution to toileting independently. The slimline, battery-powered lift mimics a natural standing movement, gently lowering and raising the user on and off the toilet at the simple touch of a button.

Leg lifter (MF BLR Mk3)

Designed to provide independence for elderly and disabled people who are unable to lift their legs from a bedside sitting position onto the bed.

Bathing cushion MG /BC)

NEW Internal design makes this inflatable bathlift much more stable than before.

The Bathing Cushion is simple to use lowering you gently to the bottom of your bath. Once there you can choose whether to leave a small amount of air in the cushion to act as a back support, or release all the air to lie right back and bathe as normal.

Shub / Spa bathlift (MW/N)

The Neptune bathlift's unique design allows fitment in almost any style of bath, making it a highly versatile and great all-round bath lift. Optional longer transfer flaps allow this bathlift to work in much wider baths like shubs & Spas.

Surfer Bather

A powered, elevating child's bath lift will make bath time fun again for those parents and carers who struggle to lift a child into and out of the bath. Holding the child comfortably and securing during both transfer and the bathing process. The Surfer Bather minimises the moving and handling risk to therapists, parents and carers.

Aquila reclining bathlift

(MW/A) Weighing in at only 9.6kg, the Aquila bathlift has got to be one of the lightest reclining bathlifts on the market. This makes it simple to place and remove from your bath and easy on your back reducing manual handling risks. It also has numerous Paediatric accessories and an optional padded cover.
